

# Have your say on new marine parks

**AMY WILLIAMS**

---

COMMENT is invited on the four new marine parks proposed for the Kimberley.

The Department of Environment and Conservation is now co-ordinating community consultation to allow people to be involved in planning for each park.

DEC district manager Alan Byrne said people could now comment on the recently released Proposed Camden Sound Marine Park Indicative Management

Plan 2010 which is open for public submissions until February 1.

He said DEC was already engaging with local shires, environment groups and fishing representatives in Broome, Derby and Kununurra.

Each of the draft management plans for proposed marine parks in Roebuck Bay, North Kimberley and at Eighty Mile Beach will be available for public comment for three months next year.

Copies of the plan can be downloaded from [www.dec.wa.gov.au/camdensound](http://www.dec.wa.gov.au/camdensound).
